1. Historical & heterocultural context

1. The **paradox of transboundary governance**:
Hydraulic consistence BUT
anthropomorphic differences
(Historical, legal, cultural, €...)
2. The water divides and unifies!
3. How to conciliate the source and the estuary?

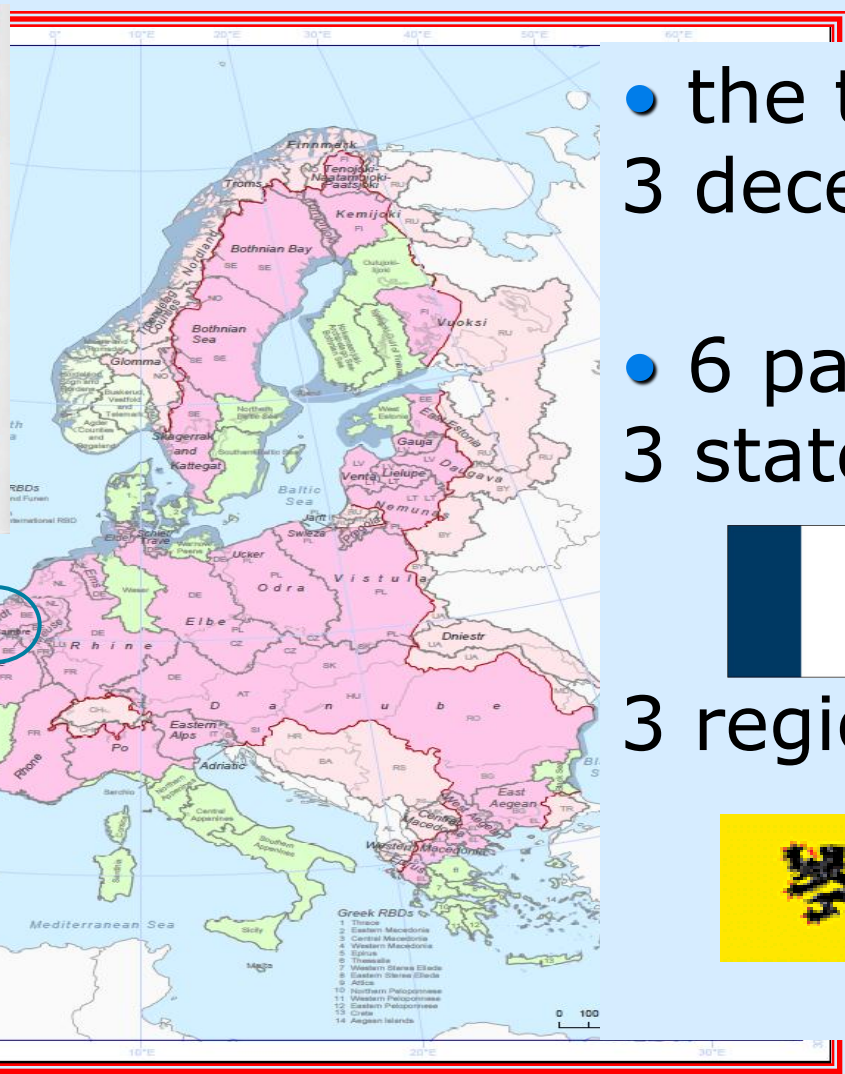

An historical & heterocultural context

ISC: International Scheldt Commission

2. How to organize transparency?

1. Through **active participation** of outside experts, NGO's representative
 - = adequate procedure
 - = adequate scale
 - = adequate rules

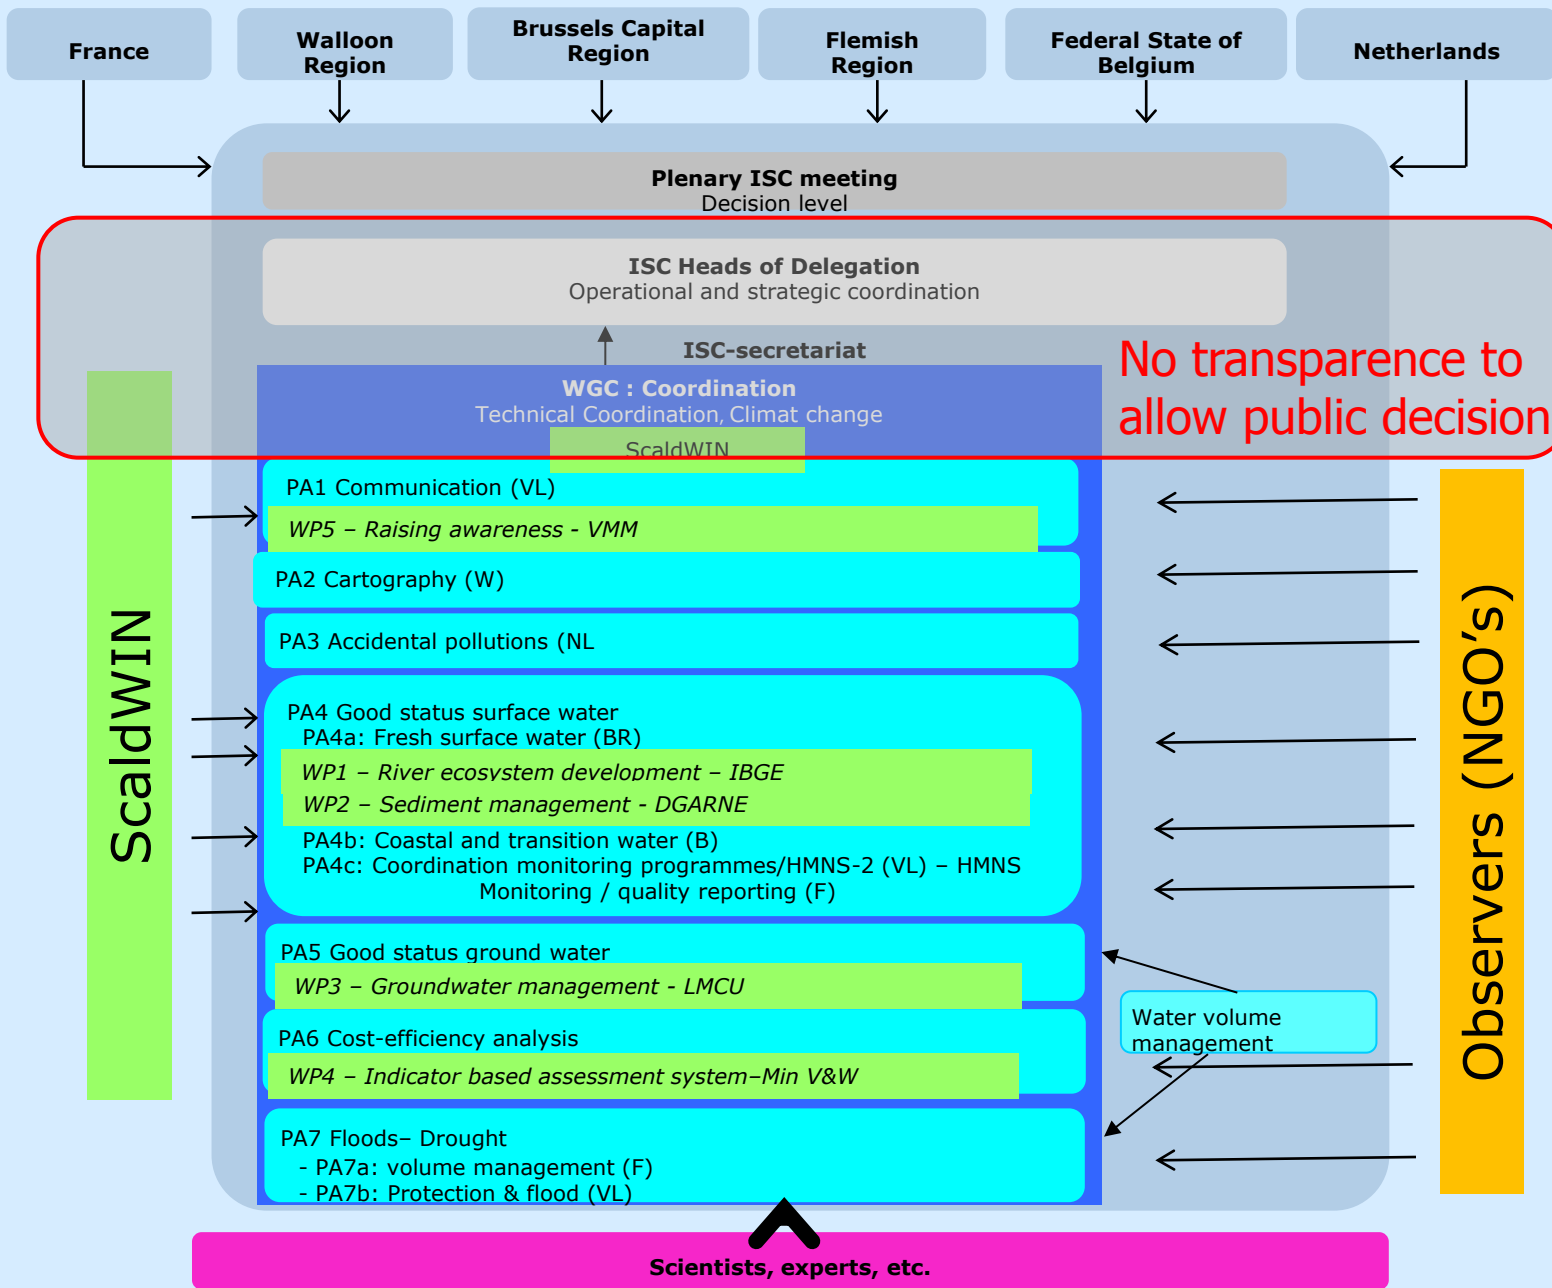

Problems: → trust

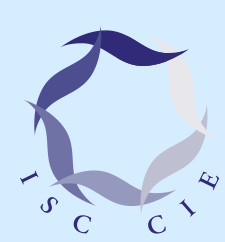

→ how do you finance it?

2. Through **publicity** : internet site, activity report, brochures, plenary meeting, symposium...

Problems: → subsidiarity = no budget com

→ lack of experience

3. A frame for bilateral coordination

1. International good governance =
multilateral & bilateral coordination
2. the **WFD PARADOX**:
international coordination **YES BUT**
rapportage by member states
